

Title: Fuzzies

Author: Jaggerauth

There is no other race
more steeped in mystery
than the Fuzzy. They
appeared in the world
suddenly, and then after
the Cataclysm following
Exodus' downfall, they
disappeared just as
quickly.

The Fuzzies were small,
simian-like people who
were masterful
spell-casters and were
dexterous of hand.
However, they lacked
greatly in strength, thus
making them better suited
for picking pockets and
studying the uses of
magic than outright
fighting.

There are no known
examples of any
particularly notable Fuzzy
throughout history, nor is
anything known of their
culture. It is completely
unknown where they came
from, or where they went
following the Cataclysm.
It can be speculated that
the Fuzzies either evolved
into what later became
known as the Emps, or
intermingled with another
species to extinction, or
perhaps to create the
Emps. The first scenario
seems more likely, as
both the Fuzzies and the
Emps share far too many
similarities to be mere
coincidence.
